

# Clermont County is cleaner today because of you... thanks!

## *You don't have to be big to be smart.*

Because you knew that a cleaner and greener Clermont County would make for a better, healthier way of life for all of us, you were willing to do your part.

And on Saturday, April 26th, you proved it.

More than 500 of you volunteered to come out and celebrate Clean & Green Day in Clermont County by picking up litter and trash from our villages, the sides of our streets and roads, our neighborhoods, business districts, and school yards.

We want to thank you and let you know that, collectively, you set a record by more than doubling the number of volunteers who participated in the clean-up event last year!

And to the following who sponsored or in other ways supported or contributed to the success of your efforts, we offer our gratitude and appreciation:

- Clermont County Commissioners
- Clermont County Engineer's Office
- Clermont County Juvenile Court
- Clermont County Municipal Court
- Clermont County Office of Environmental Quality
- Clermont County Sheriff's Office
- Clermont County Townships, Cities, and Villages
- Community Press Newspapers
- Flannery Developers, Ltd.
- Home Depot
- Keep Cincinnati Beautiful
- Meijer
- Ohio Department of Natural Resources
- Ohio Department of Transportation
- Chiquita Bananas

If you would like to help keep Clermont County clean all year long, please give Dave Strubbe, Clean & Green Coordinator, a call at 753-9222. Ask about our Adopt-A-Spot program that will fit the time you have to give.
